

HEALTH ASSESSMENT FORM

After meeting with the Admissions Representative, I have been made aware that the Massage Therapy program at the Vancouver College of Massage Therapy is very intense for new students.

Factors that influence the intensity include but are not limited to the academic component, pace of program, physical demands and emotional toll the program can take on the individual.

I understand that before choosing the massage therapy profession, careful consideration must be given to the physical, psychological and emotional demands of the training and practice as a Registered Massage Therapist.

I, _____ to the best of my knowledge, believe I am in good health and don't have any mental, physical or psychological conditions that may prevent me from performing massages or any required components of this program.

Student Signature _____ Date _____
